MANOR

AN ESTATE
DEDICATED TO
IMMERSIVE
EXPERIENCES.

A walled garden, a micro bakery, a manor house, 3 acclaimed restaurants, cookery school, 24 bedrooms, 45 acres of woodland and lawns.

On our Michelin-starred estate, we deliver experiences that engage all the senses.

Our unique context provides the opportunity for you to translate theory into fun, interactive, multi-sensory, eye-opening moments.

DOCTOR SALLY BELL YOUR GUIDE

Dr Sally Bell is our estate's Wellness Director.

She is a medical doctor of over 20 years experience that has taken her to refugee camps, inner city estates and corporate boardrooms. She is a regular on BBC radio and delivers the wellness programme for the British Army.

She specialises in personalised healthcare that gets to the roots of stress, fatigue and illness.

With her network of leading professionals and her depth of insight, you have all you need to tailor-make a day of transformation for your team.

Communicating change is a challenge.
Making it stick is another.

How do we do it at Hampton Manor?

We steer away from long keynote speeches.
Here, self discovery is a conversation - not just with your mind but with your hands and heart. All our workshops are interactive and we focus on these three ingredients for change:

Purpose

Before change can happen, you need to reconnect within so you can spark everyone's inner drive for transformation.

Play

We believe play is a serious matter. On our sensory estate, we re-ignite your team's creativity and connection through exploration and discovery. No ball games, mud or quad bikes required.

Powerful You

We'll equip your team with the insights and habits to take their health and well being into their own hands.
